Permits are subject to penalty if work is started prior to pulling the permit.

The plumbing permit number and name of home owner or business are the information needed when making an inspection request. We would appreciate at least 24 hours notice. Just a reminder, any plumber doing commercial/industrial plumbing must carry a state plumbing license. Also, any plumber doing any work on a private water system must carry an Ohio Department of Health Private Water System registration. A private water system consists of everything from the well into the house and including the pressure tank.
